

October 30, 2023

Dear Congressman Nunn,

During a recent meeting between Food & Water Watch and the Des Moines branch of Women's League for International Peace and Freedom with your staffer, Madeline Dwelle, we asked you to co-sponsor a suite of bipartisan bills as part of the Farm Bill. These included:

- H.R. 1249: Opportunities for Fairness in Farming Act of 2023
- H.R. 5081: Country of Origin Labeling Enforcement Act of 2023
- H.R. 5252: EQIP Improvement Act of 2023

As your constituents, we urge you to take action on these critical pieces of legislation. We ask that you respond to the work we've done and take an immediate position in support of these policies.

Below you will find a copy of our petition with 376 signers from your district. We were informed that you are willing to meet with us when you are back in the district, and we look forward to this meeting.

Best,

Michaelyn Mankel
Factory Farm Team Organizer
Food & Water Watch and Food & Water Action

Jan Corderman
Women's International League for Peace & Freedom - U.S.
JANCORDERMAN@msn.com

Since the last Farm Bill's passage in 2018, food and agriculture policy has been dominated by a handful of industrial agriculture corporations that have raked in enormous profits at the expense of animal welfare, the environment, workers, families, and rural communities. We need a Fair Farm Bill that would let the people who grow our food earn a living, practice environmental stewardship, and rebuild the infrastructure that consumers need to access sustainably grown, regionally produced food. We, the undersigned, demand the following reforms:

- Conservation: close loopholes that fund factory farms and false solutions. Make sure conservation programs actually support small and medium sized, sustainable farmers.
- Competition: Restore competition and fairness to agriculture by bolstering small and medium sized farmers and returning strong antitrust enforcement to the market.
- Commodities: Instead of encouraging overproduction of corn and soy that mainly benefit big agribusiness's factory farms and ethanol, we need to transition to tried-and-true supply management policies like price floors, grain reserves and conservation.

Signed,
